-  Compatible with EDI transmissions, API updates, and QuickBooks
-  Customized reporting to manage exceptions and identify trends
-  In house team of coders and technicians provide nimble and immediate results

## THEY SAY

"CB Transportation developed a proprietary TMS for Five Below that addressed the needs of our stores, our supply chain partners & our corporate personnel. Their ability to understand our unique requirements and translate them into a web based, user friendly application makes them a valued transportation and technology partner"

*J. Fetto, Transportation Manager*

"Trust, integrity, and solid communication... these are just a handful of the many reasons why we'll continue to benefit from our 20 year partnership with CB. It's not only the opportunities they bring to us; but also their ability to adapt and provide solutions that makes them a desirable customer to work with"

*E. Hendrix, Business Development Manager*

"CB Transportation has consistently met my supply chain challenges with sustainable solutions that demonstrate their understanding of my business. I appreciate the partnership we've developed over 15 years and the dedicated group at CB who know how to solve problems and deliver results"

*N. Salimbene, Director of Operations*

"CB came through and far exceeded our expectations. Communication with CB Transportation has been exceptional. They continually look for ways to improve processes to set us up for success. This has enabled us and our sister companies to grow"

*B. Bagley, Director of Enterprise Solutions*

"Carole and her team have been diligent in their efforts to ensure CB Transportation delivers on their promises and they have earned our trust and respect. I often highlight CB Transportation as a example of a supplier who provides great value to UPS, and that embodies the diversity we seek in our supply chain"

*K. Oswald, Director of Supplier Diversity*

## WE THINK

"At CB, we cultivate strategic partnerships, understanding that trust and reliability are fundamental to our mutual successes."

**Carole L. Borden**  
CEO, Founder

**Michael J. Vallino**  
CIO

**Nikki Hamby**  
General Manager
