FOR IMMEDIATE RELEASE

FOR TWO CONSECUTIVE YEARS CB TRANSPORTATION RANKS HIGH IN THE COVETED INC. 500/5000

Chester Springs, PA (August 24, 2011) – CB Transportation announced its inclusion in the 2011 Inc. 500/5000 annual list of America’s fastest-growing private companies. Despite this year’s tough economic road, CB Transportation continues to achieve rapid growth due to its broad vision, sharp client focus, and exceptional hires.

The Inc. 500/ 5000 list presents a comprehensive look at the most important segment of the economy—America’s independent-minded entrepreneurs. These leaders create jobs, build momentum, and inspire us to stay optimistic in a challenging economy. As an honoree, CB Transportation shares a prestigious pedigree with such notable alumni as Microsoft, Zappos, Timberland, Intuit, Oracle and Under Armour, all of whom gained early exposure as members of the Inc 500.

“It’s an incredible honor for the Inc. 500/5000 to acknowledge our success,” says CB Transportation CEO Carole Borden. “We work diligently to meet our customers’ needs and to sustain long-standing partnerships with our network of carriers. This award validates that our dedication and focus are well directed.”

CB Transportation has succeeded in achieving 144% growth over the past three years. That same drive is echoed in the service CB Transportation provides its customers, and their ongoing commitment to reducing their carbon footprint. The company creates eco-friendly workplaces and partners with vendors who share their concern for the environment. Hands-on executive involvement, measurable results, and a sophisticated technology platform are a few of the top competitive advantages CB Transportation offers its clientele. With employees located in six states, the team is able to provide continuous communication and visibility in a cutting edge virtual environment while balancing work and family. Delivering intelligent solutions across North America and around the clock has allowed CB Transportation to maintain its position at the top of the transportation industry.
